**Notification of the Intention to Proceed
with One Unspecified Minor Military Construction, Army Project**

The Department of the Army proposes to authorize the obligation of MCA funds for the following Unspecified Minor Military Construction, Army project:

**Installation &
Project Description**

Fort Drum, NY

Site Preparation for Reconnaissance, Surveillance, and Target Acquisition
(RSTA) Battalions, Project Number 62193

Estimated cost is \$1,200,000

This project will provide site preparation work including grading; construction of vehicle parking; placement of concrete pads for modular buildings; utility connections (to include water, sewer, electric, gas, storm drainage, communications); and grass reseeding of site. This project will provide for site preparation for temporary modular facilities (company headquarters buildings) to support the facility requirements of three Reconnaissance, Surveillance, and Target Acquisition (RSTA) Battalions at Fort Drum. These facilities are required by October 2004. Existing facilities are not available to support this requirement. Therefore, modular facilities will provide the interim means until permanent facilities become available. This project is required to support planned new units of action as part of the Army's modularity transformation.
